Re: National Gypsum Property, Millington, New Jersey

Dear Mr. Jurewicz:

I have been informed by the Bureau of Flood Plain Management, Division of Water Resources, that a stream encroachment permit is required for a portion of the site improvements you proposed in the plan dated June 9, 1978, submitted to this Administration concerning the above reference site. Therefore, to enable the necessary improvements to be implemented, you must make application for said permit to the aforementioned Bureau. To assist this Department in expediting this matter, this application should be made within 15 days from the date of this letter.

If you have any questions concerning the stream encroachment application, please contact Buthros Habek, Bureau of Flood Plain Management at 609-292-2402. The address for said Bureau is 1474 Prospect Street, Trenton, New Jersey.

Very truly yours,

Beatrice S. Tylutki, Director
Solid Waste Administration
